

BRIEF SUMMARY

Passionate Full Stack Developer with hands-on experience building responsive, user-friendly web applications. Focused on creating scalable solutions and expanding AI skills to enhance web development. Data analysis enthusiast with Power BI projects, including dashboards and stunning visualizations that uncover business insights.

KEY EXPERTISE

Python Django Data Analytics PowerBI SQL Web Development Data Visualization ReactJS

EDUCATION

Skn Sinhgad College Of Engineering, Pandharpur

2022 - 2026

B.E. - Computer Science & Engineering | CGPA: 8.94 / 10

Sangola Vidyamandir Jr. College, Sangola, Sangola

2022

12th | MSBSHSE | Percentage: 71.33 / 100

Sangola Vidyamandir Prashala Sanola, Sangola

2020

10th | MSBSHSE | Percentage: 97 / 100

INTERNSHIPS

CodeSpeedy Technology Pvt. Ltd. | IT / Computers - Software

13 Dec, 2024 - 13 Jan, 2025

Python Developer Intern

Key Skills: Python django WordPress

Python Developer Intern

CodeSpeedy Technologies Pvt. Ltd. | Remote | 1-month Internship

- o Developed and tested multiple Python-based tasks and mini-projects assigned by the company.
- o Utilized technologies such as Python, Django, HTML, CSS, and JavaScript for full-stack development.
- o Authored technical blogs for each project using WordPress, showcasing development process and code walkthroughs.
- o Gained hands-on experience in web development, backend logic, and content publishing.
- o Acquired meaningful professional exposure and improved proficiency in collaborative and independent development work.

PROJECTS

E-menu : A digital Food Ordering System

12 Aug, 2024 - 06 Nov, 2024

Mentor: Prof. M.S. Koli | Team Size: 3

Key Skills: Django SQLite Python HTML5 CSS Web Development

Project Link: <https://github.com/siddhidoiphode/EcommerceSalesLinkedIn?tab=readme-ov-file>

Worked as a Backend Developer

- o Developed a Django-based web ordering system for restaurants using Python and SQLite, enabling table-specific ordering via QR codes.
- o Used features like real-time order tracking, Admin Panel, and revenue/billing calculations to support efficient operations and analytics.
- o Integrated responsive front-end technologies for a seamless customer experience across devices.
- o Reduced waitstaff dependency and improved order accuracy and speed.

Key Features: QR Code-Based Table Identification · Real-Time Ordering · Admin Panel · Revenue & Billing Calculation

Personal Portfolio

Key Skills: Django Web Development HTML5

Project Link: <https://github.com/siddhidoiphode/Portfolio>

Full Stack Developer

- o Created a responsive portfolio to showcase projects, skills, and certifications.
- o Integrated a Gmail-powered contact form for direct communication.
- o Designed for a clean, professional online presence across all devices.

Features: Responsive Design · Contact Form · Gmail Integration

Carnival registration

Key Skills: ReactJS UI/UX Design Frontend Development

Project Link: <https://sknscoo-carnival.vercel.app/>

Worked as a Front-End Developer on college carnival's sponsored event registration system.

Key Skills: React.js · UI/UX Design · Responsive Design

o Built a responsive, user-friendly UI using React.js

o Enabled real-time email updates, simplified registration flow, and improved user engagement.

o Reduced manual workload by streamlining communication and data handling.

o Added reset functionality to support system reuse in future events.

Ecommerce Sales Dashboard

Key Skills: PowerBI Data Visualization Excel Data Cleaning

Project Link: <https://github.com/siddhidoiphode/EcommerceSalesLinkedIn?tab=readme-ov-file>

Role: Data Analyst | Tool: PowerBI

o Built an interactive dashboard to visualize key eCommerce metrics using bar charts, donut charts, maps, and month-wise slicers.

o Delivered insights on profit, sales, quantity sold, AOV, customer segments, states, categories, and payment modes.

o Enabled dynamic filtering and trend analysis to support better business decisions. Used Excel for data cleaning.

Project Highlights:

o Total Profit: Rs.37K

o Units Sold: 5,615

o AOV: Rs.121K

Supermarket Sales Dashboard

Key Skills: Data Cleaning Creating Stunning Visualization Data Analysis

Project Link: <https://github.com/siddhidoiphode/SuperMarketSalesDashboard>

Role: Data Analyst | Dataset: Kaggle

o Developed an interactive dashboard to analyze supermarket sales using bar charts, donut charts, maps, and month slicers.

o Visualized key metrics such as total revenue, tax collected, regional sales, and product performance.

o Enabled time-based filtering and regional comparisons for effective business insights.

Key Highlights:

o Total Revenue: Rs.322.97K

o Tax Collected: Rs.15.18K

o Quantity Sold: 5,510 units

o Best-Selling Categories: Electronics, Food Business, Sports

ACHIEVEMENTS

- o Golden Badge for Python - HackerRank
- o SQL 50 Badge - LeetCode
- o Rank 1 - Speech Competition

ASSESSMENTS / CERTIFICATIONS

The Joy of Computing using Python

Aggregate: 70 / 100

Key Skills: Python Programming Object-Oriented Programming Logic Building

I have completed a 12-week comprehensive Python course focusing on Python basics, building logic by solving multiple programming questions, basic DSA, and creating classic games such as tic-tac-toe. The course was also useful for learning basic data structure concepts in Python and understanding OOP concepts, which are important for building a strong foundation. Additionally, I learned about the working of the PageRank algorithm.

SQL Basics - HackerRank

Key Skills: SQL

Microsoft Trophy- PowerBI

Key Skills: Data Analysis PowerBI Excel ETL concepts

EXTRA CURRICULAR ACTIVITIES

- o I have participated in college competitions and have been awarded Winner in a Speech Competition and Runner-up in a Kho-Kho Competition.
- o Attended a 1.5-month offline program on C and Python programming basics and volunteered for the same program.

- o Completed Soft Skills Training

PERSONAL INTERESTS / HOBBIES

- o Enjoy painting
- o Reading Psychological books
